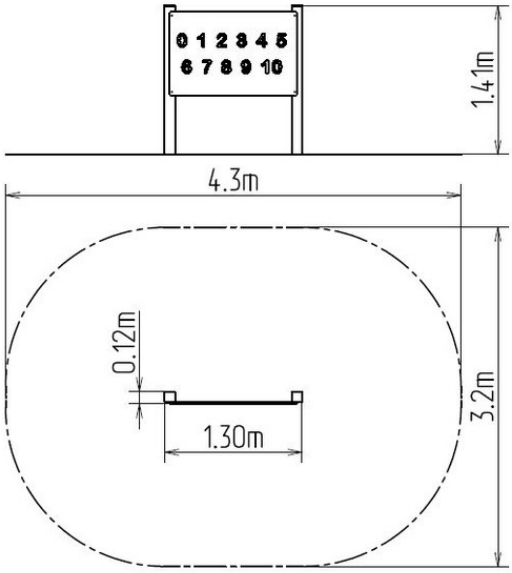
Interactive panel IP105D

Product type IP-105D-10

Basic information

Age category	from 0 years
Minimum area	4,3 m x 3,2 m
Equipment measurements	1,3 m x 0,12 m x 1,41 m
Free fall height:	0 m
Load capacity:	Not specified
Max. number of users:	Not specified
Fall zone: EN 1177	Grass surface
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176



Material

Wooden parts - thick glued wooden supports
Metal parts - structural steel
Plastic parts - HDPE

Finish

Impregnation and coating with a triple layer of lacquer
Hot-dip galvanizing

Description

The panel support structure is made from 100 x 100 mm thick glued wooden supports. This solution ensures maximum protection against cracking, which is common for products made from solid wood. The wooden supports are impregnated and coated with a triple layer of lacquer, which meets the terms and conditions of the EN71/3 Standard (safe for children's toys).
The wall is made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). All fastening material is galvanized or stainless steel.
