Four seat seesaw VH401KW - brown

Product type

VH-401KW-10

Basic information

Material		
Certificate of Compliance:	ČSN EN 1176 - 1, 6	-
Availability of spare parts:	supplied by the	
Designation:	exterior	
Fall zone: EN 1177	Grass surface	-
Max. number of users:	4	
Load capacity:	216 kg	
Free fall height:	1 m	
Equipment measurements	3,68 m x 0,29 m x 0,88 m	
Minimum area	6,7 m x 2,3 m	
Age category	2 - 10 years	

Finish

Seats - HPL

Duplex powder coated with coat curing Hot-dip galvanizing

Metal units - structural steel

Description

The seesaw beam is made from structural steel, which is zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion and is anchored to the support structure by carriage bolts. The support structure of the see-saw is steel; it is protected against corrosion by hot-dip galvanizing and fixed in a concrete bed.

The seats are made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance).

The handles are zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. All fastening material is galvanized or stainless steel. The swing is constructed with durability and long life in mind. Impacts are dampened by rubber bumpers.
