Hexagonal sandpit PI600D

PI-600D-10 Product type

Basic information

Age category from 0 years 6 m x 5,6 m Minimum area **Equipment measurements** 3 m x 2,6 m x 0,24 m

0,24 m Free fall height: Not specified Load capacity: Max. number of users: Not specified Fall zone: EN 1177 Grass surface Designation: exterior

Availability of spare parts: supplied by the Certificate of Compliance: ČSN EN 1176 - 1

Material

Wooden units - glued wooden supports Metal units - structural steel

6т .60m 5.6m 3.00m

Finish

Impregnation and coating with a triple layer of lacquer Hot-dip galvanizing

Description

The sandpit is made from glued wooden supports. This solution ensures maximum protection against cracking, which is common for products made from solid wood. The wooden supports are impregnated and coated with a triple layer of lacquer, which meets the terms and conditions of the EN71/3 Standard (safe for children's toys).

The structures are anchored into the ground in steel plates, which are protected against corrosion by hot-dip galvanizing. The anchors are fastened to the play unit with bolts and their structure ensures that they are not in direct contact with the ground. All fastening material is galvanized or stainless steel.
