Hot-dip galvanizing

Description

The support structure of the twin fitness rack is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements, and coating with baked paint KOMAXIT according to the RAL colour system and is fixed in a concrete bed. All other metallic elements are also zinc coated and treated with baked paint KOMAXIT according to the RAL colour system. The twin fitness rack is constructed with durability and long life in mind. All fastening material is galvanized or stainless steel.

Equipment

We offer three color variants of the support structure - red, blue and brown.
