## Playhouse DO203KW - brown

Product type DO-203KW-10

## **Basic information**

Age category 0 - 10 years Minimum area 5 m x 4,2 m

Equipment measurements 2 m x 1,16 m x 1,52 m

Free fall height: 0 m
Load capacity: 324 kg
Max. number of users: 6

Fall zone: EN 1177 Grass surface
Designation: exterior
Availability of spare parts: supplied by the
Certificate of Compliance: ČSN EN 1176 - 1

#### **Material**

Metal units - structural steel Wooden units - water-proof plywood Plastic units - HDPE Roof - HPL

## **Finish**

Duplex powder coated with coat curing Hot-dip galvanizing

# Description

The support structure of the playhouse is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are anchored to concrete footings. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The benches, side walls and table are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The roof is made from HPL (High-pressure laminate, which is characterised by high colour stability, UV resistance and water resistance). The drawing area and floor are made from water-proof plywood, which is designed for external use. All fastening material is galvanized or stainless steel.

#### **Equipment**

Roof, 3x side wall, 2x bench, table, abacus, drawing board, floor.
