Description

The sandpit is made of structural steel, which is protected against corrosion by zinc coating, which results in a very significant prolongation of the play element's lifetime and the fired paint KOMAXIT according to the RAL shade. These structures are embedded in a concrete bed. All other metal elements of the metal elements are also treated with galvanizing and burnt paint KOMAXIT according to the RAL shade.

The sliding cover of the sandpit is made of waterproof plywood designed for outdoor use. All fasteners are galvanized or stainless steel.
