## Skill path SD112KW - Brown

Product type SD-112KW-10

### **Basic information**

Age category 2 - 10 years Minimum area 5,1 m x 4,2 m

Equipment measurements 2,05 m x 1,2 m x 0,42 m

Free fall height:

Load capacity:

Max. number of users:

Fall zone: EN 1177

Designation:

Availability of spare parts:

Certificate of Compliance:

0,6 m

Not specified

Rorass surface

exterior

supplied by the

ČSN EN 1176 - 1, 11

#### Material

Metal units - structural steel Plastic units - HDPE

# 5.1m 5.1m 2.05m

### Finish

Duplex powder coated with coat curing Hot-dip galvanizing

### **Description**

The support structure of the skill path is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are embedded in a concrete base. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

All step boards are made of high quality HDPE (high-pressure, full-coloured polyethylene, which is characterised by high colour stability, UV resistance and mainly safety because it is rigid and there is no risk of injury caused by sharp broken fragments). All connecting material is zinc or stainless steel coated.

### **Equipment**

We offer three color variants of the support structure - red, blue and brown.
