

## Chain group six swing RH1610KW - Brown (f.h. 1,5 m)

Product type RH-1610KW-15

### Basic information

|                              |                                     |
|------------------------------|-------------------------------------|
| Age category                 | 2 - 15 years                        |
| Minimum area                 | 12,2 m x 11,6 m                     |
| Equipment measurements       | 5,1 m x 5,8 m x 2,29 m              |
| Free fall height:            | 1.5 m                               |
| Load capacity:               | 324 kg                              |
| Max. number of users:        | 6                                   |
| Fall zone: EN 1177           | Rubber or gravel, 63 m <sup>2</sup> |
| Designation:                 | exterior                            |
| Availability of spare parts: | supplied by the                     |
| Certificate of Compliance:   | ČSN EN 1176 - 1, 2                  |

### Material

Metal parts - structural steel  
Normal seat - aluminum, covered with rubber  
Baby seat - rubber with aluminum insert

### Finish

Duplex powder coated with coat curing  
Hot-dip galvanizing

### Description

The support structure of the swing is made from structural steel, which is zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. The structures are anchored into the ground in steel plates, which are protected against corrosion by hot-dip galvanizing and fixed in a concrete bed. The anchors are fastened to the play unit with bolts and their structure ensures that they are not in direct contact with the ground.

The seat is made of rubber and is reinforced with an aluminum insert. The Normal seat is made of aluminum, covered with a soft and comfortable rubber. The chains are stainless steel, resulting in a very prolonged service life of the product. All fastening material is galvanized or stainless steel.

### Equipment

6x metal beam (galvanized), 4x Normal seat, 2x Baby seat. We offer three color variants of the support structure - red, blue and brown.
