## Description

The seesaw beam is made from structural steel, which is zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion and is secured to the support spring. The spring is made from special spring steel and are duplex powder coated with coat curing according to RAL to prevent corrosion.

The seats are made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). The handles are zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. The swing is constructed with durability and long life in mind. Impacts are dampened by rubber bumpers. All fastening material is galvanized or stainless steel.
