Playhouse DO202KW - brown

Product type DO-202KS-10

Basic information

Age category 0 - 10 years 5 m x 4,2 m Minimum area

Equipment measurements 2 m x 1,16 m x 1,52 m

0 mFree fall height: 324 kg Load capacity: Max. number of users: 6

Fall zone: EN 1177 Grass surface Designation: exterior Availability of spare parts: supplied by the Certificate of Compliance: ČSN EN 1176 - 1

Material

Metal units - structural steel

Plastic units - HDPE

Roof - HPL

5m 2.00 m

Finish

Duplex powder coated with coat curing Hot-dip galvanizing

Description

The support structure of the playhouse is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are anchored to concrete footings. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The benches and side walls are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The roof is made from HPL (High-pressure laminate, which is characterised by high colour stability, UV resistance and water resistance). The drawing area is made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). All fastening material is galvanized or stainless steel.

Equipment

Roof, 3x side wall, 2x bench, drawing board, abacus.
