

Crawler with a rope tube - Police car

Product type PP-101K-10

Basic information

Age category	0 - 10 years
Minimum area	5,3 m x 4,1 m
Equipment measurements	2,29 m x 1,03 m x 1,19 m
Free fall height:	1 m
Max. number of users:	5
Fall zone: EN 1177	Grass surface
Certificate of Compliance:	ČSN EN 1176-1 ed.2 +A1:2024 ČSN EN 1176-11:2015

Material

Plastic units - HDPE
Ropes - polypropylene with a steel internal core
Metal units - structural steel
Platforms - Foamlite

Finish

Duplex powder coated with coat curing
Hot-dip galvanizing

Description

The supporting structure of the police car is made of structural steel, which is protected against corrosion by the zinc coating, which provides a very significant prolongation of the life of the gaming elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are embedded in a concrete bed. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. All other parts are made of high quality plastic HDPE (full-coloured high-density polyethylene, which is characterized by high color fastness, UV resistance and mainly safety, because it is non-breakable and there is no risk of injury to children sharp fragments). Rope tunnel is made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and are connected with plastic or aluminium joints. All fasteners are galvanized or stainless steel.

Equipment

1x Rope tunnel, 1x steering wheel, 2x interactive sidewalls, 4x cushions
