

Fencing for children's playgrounds and sandpits OP002K

Product type OP-002K-10

Basic information

Age category	from 0 years
Minimum area	2,06 m x 1,1 m
Equipment measurements	2,06 m x 0,06 m x 0,87 m
Free fall height:	1 m
Load capacity:	Not specified
Max. number of users:	Not specified
Fall zone: EN 1177	Not specified
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176 - 1

Material

Metal units - structural steel
Wooden units - spruce wood or oak

Finish

Impregnation and coating with a triple layer of lacquer
Hot-dip galvanizing

Description

The fencing structure is made from structural steel, protected against corrosion by hot-dip galvanizing, which significantly prolongs the life of the play unit. The structures are fixed in a concrete bed. The fencing slats are made from spruce wood, or oak should the client require. The wood is impregnated and coated with a triple layer of lacquer, which meets the terms and conditions of the EN71/3 Standard (safe for children's toys). The slats are secured to the metal structure. All fastening material is galvanized or stainless steel.
