

Double seat seesaw VH201D

Product type VH-201D-10

Basic information

Age category	2 - 10 years
Minimum area	6,1 m x 2,3 m
Equipment measurements	3,08 m x 0,29 m x 0,93 m
Free fall height:	1 m
Load capacity:	108 kg
Max. number of users:	2
Fall zone: EN 1177	Grass surface
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176 - 1, 6

Material

Metal units - structural steel
 Seats - HPL
 Wooden units - thick glued wooden supports

Finish

Impregnation and coating with a triple layer of lacquer
 Komaxit powder coating
 Hot-dip galvanizing

Description

The seesaw beam is made from a glued wooden support and is secured to the steel structure with carriage bolts. The construction is protected against corrosion by hot-dip galvanizing and is fixed in a concrete bed. The wooden support is impregnated and coated with a triple layer of lacquer, which meets the terms and conditions of the EN71/3 Standard (safe for children's toys). The seats are made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). The handles are zinc coated and KOMAXIT powder coated steel. All fastening material is galvanized or stainless steel. The swing is constructed with durability and long life in mind. Impacts are dampened by rubber bushings.
