

Crawl tunnel AG-108K - metal

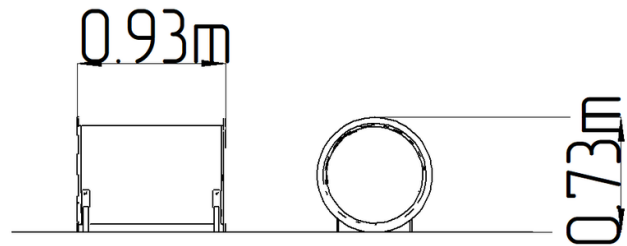

Product type AG-108K

Basic information

Age category	Not specified
Minimum area	m x m
Equipment measurements	0,93 m x 0,73 m x 0,73 m
Free fall height:	m
Load capacity:	Not specified
Max. number of users:	Not specified
Fall zone: EN 1177	
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	

Material

Metal units - structural steel
 Tunnel - fibreglass

Finish

Komaxit powder coating
 Hot-dip galvanizing

Description

The support structure of the tunnel is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements, and coating with baked paint KOMAXIT according to the RAL colour system. These structures are anchored to concrete footings. All other metallic elements are also zinc coated and treated with baked paint KOMAXIT according to the RAL colour system.

Crawl tunnel is made from fibreglass which is UV stable and it is characterised by high colour stability. All fastening material is galvanized or stainless steel.
