

Curved Path AG-701K - metal

Product type AG-701K

Basic information

Age category 0 - 0 years Minimum area m x m

Equipment measurements 6,93 m x 2,97 m x 0,2 m

Free fall height:

Load capacity: Not specified

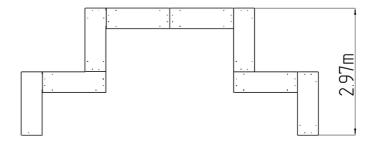

Max. number of users: Not specified null Designation: exterior Availability of spare parts: Not specified null exterior supplied by the

Certificate of Compliance:

6.93m

Material

Metal units - structural steel Plastic units - Foamlite

Finish

Duplex powder coated with coat curing Hot-dip galvanizing

Description

The support structure is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are embedded in a concrete base. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

All step boards are made of high quality Foamlite (high-pressure, which is characterised by high colour stability, UV resistance and mainly safety because it is rigid and there is no risk of injury caused by sharp broken fragments). All connecting material is zinc or stainless steel coated.
