

Balance beam AG-105K - metal

Product type AG-105K

Basic information

Age category	0 - 0 years
Minimum area	m x m
Equipment measurements	10,4 m x 0,3 m x 1,2 m
Free fall height:	m
Load capacity:	Not specified
Max. number of users:	Not specified
Fall zone: EN 1177	null
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	

Material

Metal units - structural steel
Plastic units - Foamlite
Step - HDPE

Finish

Duplex powder coated with coat curing
Hot-dip galvanizing

Description

The support structure is made of structural steel which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements or duplex powder coated with coat curing according to RAL to prevent corrosion. These structures are embedded in a concrete base. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

All step boards are made of high quality Foamlite (high-pressure, which is characterised by high colour stability, UV resistance and mainly safety because it is rigid and there is no risk of injury caused by sharp broken fragments). All connecting material is zinc or stainless steel coated.
