

## Game set classic UNK2032KW - brown

Product type UNK-2032KW-10

### Basic information

|                            |  |
|----------------------------|--|
| Age category               | 2 - 15 years   |
| Minimum area               | 9,66 m x 7,41 m  |
| Equipment measurements     | 6,66 m x 2,97 m x 2,95 m   |
| Free fall height:          | 1 m  |
| Max. number of users:      | 16   |
| Fall zone: EN 1177         | Grass surface  |
| Certificate of Compliance: | ČSN EN 1176-1 ed.2 +A1:2024<br>ČSN EN 1176-2 ed.2:2018<br>ČSN EN 1176-3 ed.2:2018<br>ČSN EN 1176-11:2015 |

### Material

Wooden units - thick glued wooden supports  
 Metal units - structural steel  
 Climbing holds - polyester  
 Plastic units - HDPE, polyamide  
 Slide - fibreglass  
 Seat - aluminum, covered with a rubber  
 Ropes and nets - polypropylene with a steel internal core

### Finish

Duplex powder coated with coat curing  
 Hot-dip galvanizing

### Description

The supporting structure is made of galvanized structural steel and then powder coated, and all other metal parts are made of black structural steel, sandblasted, duplex sprayed with powder coated.

All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion.

The slide is made from fibreglass. The surfaces of the slides, steps, etc. are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The rope bridge and the rope are made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and are connected with plastic or aluminium joints. The platforms are made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). The roof is made from HPL (High-pressure laminate, which is characterised by high colour stability, UV resistance and water resistance). The Normal seat is made of aluminum, covered with a soft and comfortable rubber. The chains are stainless steel, resulting in a very prolonged service life of the product. The climbing holds are made from the polyester, which ensures long life, colour preservation as well as skin friendly surface. All fastening material is galvanized or stainless steel.

### Equipment

2x tower, slide, A-shaped roof, 3x barrier, sloping ramp, rope bridge, sloping ramp with plastic side, metal beam, 1x seat Normal.
