

Game set castle UNH3015KS - silver

Product type UNH-3015KS-20

Basic information

Age category	3 - 15 years
Minimum area	12,5 m x 10 m
Equipment measurements	10,2 m x 6,2 m x 3,66 m
Free fall height:	2,0 m
Max. number of users:	23
Fall zone: EN 1177	Rubber or gravel, 95 m ²
Certificate of Compliance:	ČSN EN 1176-1 ed.2 +A1:2024 ČSN EN 1176-2 ed.2:2018 ČSN EN 1176-3 ed.2:2018 ČSN EN 1176-11:2015

Material

Platform - HPL
Metal units - structural steel
Climbing holds - polyester
Plastic units - HDPE, polyamide
Slides and tube slide - fibreglass
Ropes and nets - polypropylene with a steel internal core
Tunnel - HDPE

Finish

Duplex powder coated with coat curing
Hot-dip galvanizing

Description

The supporting structure is made of galvanized structural steel and then powder coated, and all other metal parts are made of black structural steel, sandblasted, duplex sprayed with powder coated.

All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. The slide and tube slide are made from fibreglass. The surfaces of the slide, tube slide, etc. are made from high quality HDPE (full-coloured high-density polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The climbing net, rope bridge are made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and are connected with plastic or aluminium joints. The platforms are made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). The crawler tunnel is made of fibreglass with high UV stability and high colour stability. The Normal seat is made of aluminum, covered with a soft and comfortable rubber. The chains are stainless steel, resulting in a very prolonged service life of the product. The climbing holds are made from the polyester, which ensures long life, colour preservation as well as skin friendly surface. Crawl tunnel is made from HDPE (full-coloured polyethylene, which is characterised by high colour stability and UV resistance). All fastening material is galvanized or stainless steel.

Equipment

3x tower, slide, tube slide, 3x Zinnenbattlements, 6x barrier, sloping ramp, sloping ramp with plastic side, crawl tunnel between the towers, rope bridge, metal beam, vertical climbing net, 2x seat Normal.
