

## Skill path - brown

Product type SDO-8006KW-10

### Basic information

|                            |                             |
|----------------------------|-----------------------------|
| Age category               | 2 - 10 years                |
| Minimum area               | 5,9 m x 5,72 m              |
| Equipment measurements     | 2,9 m x 2,72 m x 1 m        |
| Free fall height:          | 1 m                         |
| Max. number of users:      | 7                           |
| Fall zone: EN 1177         | Grass surface               |
| Certificate of Compliance: | ČSN EN 1176-1 ed.2 +A1:2024 |

### Material

Platform - HPL  
 Metal units - structural steel  
 Plastic units - HDPE, polyamide  
 Ropes and nets - polypropylene with a steel internal core

### Finish

Duplex powder coated with coat curing  
 Hot-dip galvanizing

### Description

The supporting structure is made of galvanized structural steel and then powder coated, and all other metal parts are made of black structural steel, sandblasted, duplex sprayed with powder coated. These structures are embedded in a concrete base. All other metallic elements are also zinc coated or duplex powder coated with coat curing according to RAL to prevent corrosion. Ropes and nets are made of HERKULES (16 mm polypropylene ropes with inner steel core) and are connected by plastic connectors. The platforms are made from HPL (High-pressure laminate, which is characterised by high colour stability and water resistance). All connecting material is zinc or stainless steel coated.

### Equipment

We offer two color variants of the support structure - brown and silver.
