

Climbing set - brown

Product type SSE-8112KW-10

Basic information

Age category	3 - 15 years
Minimum area	9 m x 5,5 m
Equipment measurements	2,51 m x 2,5 m x 2,01 m
Free fall height:	1 m
Max. number of users:	20
Fall zone: EN 1177	Rubber or gravel
Certificate of Compliance:	ČSN EN 1176-1 ed.2 +A1:2024 ČSN EN 1176-11:2015

Material

Climbing wall - HPL
 Metal units - structural steel
 Climbing holds - polyester
 Ropes and nets - polypropylene with a steel internal core
 Plastic units - polyamide

Finish

Duplex powder coated with coat curing
 Hot-dip galvanizing

Description

The supporting structure is made of galvanized structural steel and then powder coated, and all other metal parts are made of black structural steel, sandblasted, duplex sprayed with powder coated.

The climbing net, the horizontal climbing net, the climbing rope and the rope ladder are made using HERKULES material (16 mm thick ropes made from polypropylene with a steel internal core) and they are connected with plastic joints. The climbing wall is made from HPL (High-pressure laminate, which is characterised by high colour stability, UV resistance and water resistance). The climbing holds are made from the polyester, which ensures long life, colour preservation as well as skin friendly surface. All fastening material is galvanized or stainless steel.
