

Double seat seesaw VH201D-W

Product type VH-201D-10-W

Basic information

Age category	2 - 10 years
Minimum area	6,1 m x 2,3 m
Equipment measurements	3,08 m x 0,29 m x 0,93 m
Free fall height:	1 m
Load capacity:	108 kg
Max. number of users:	2
Fall zone: EN 1177	Grass surface
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176 - 1, 6

Material

Metal units - structural steel
 Plastic units - HDPE
 Wooden units - thick glued wooden supports

Finish

Impregnation and coating with a triple layer of lacquer
 Duplex powder coated with coat curing
 Hot-dip galvanizing

Description

The seesaw beam is made from a glued 100 x 100 mm wooden support and is secured to the steel structure with carriage bolts. The construction is protected against corrosion by hot-dip galvanizing and is fixed in a concrete bed. The wooden support is impregnated and coated with a triple layer of lacquer, which meets the terms and conditions of the EN71/3 Standard (safe for children's toys).

The seats are made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). The handles are zinc coated and KOMAXIT powder coated steel. All fastening material is stainless steel. The swing is constructed with durability and long life in mind. Impacts are dampened by rubber bushings.
