

## Fire truck PP100K-Q - metal (Coastal region)

Product type PP-100K-10-Q

### Basic information

Age category	0 - 10 years
Minimum area	5,3 m x 4,1 m
Equipment measurements	2,29 m x 1,03 m x 1,19 m
Free fall height:	1 m
Load capacity:	270 kg
Max. number of users:	5
Fall zone: EN 1177	Grass surface
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176 - 1

### Material

Plastic units - HDPE  
Tunnel - polyethylene  
Metal units - structural steel  
Wooden units - water-resistant plywood

### Finish

Duplex powder coated with coat curing  
Hot-dip galvanizing

### Description

The supporting structure of the fire truck is made of structural steel, which is protected against corrosion by the zinc coating, which provides a very significant prolongation of the life of the gaming element and baked paint KOMAXIT according to the RAL shade. These structures are embedded in a concrete bed. All other metal elements are also treated by galvanizing and baked paint KOMAXIT according to the RAL shade.

All other parts are made of high quality plastic HDPE (high-pressure, full-color polyethylene, which is characterized by high color fastness, UV resistance and mainly safety, because it is non-breakable and there is no risk of injury to children sharp fragments). Climbing tunnel is made of polyethylene, which is UV stable and is characterized by high color stability. All fasteners are galvanized or stainless steel.

### Equipment

1x crawler tunnel, 1x steering wheel, 2x interactive sidewalls, 4x cushions
