

## Interactive panel IP102KW-Q - brown (Coastal region)

Product type IP-102KW-10-Q

### Basic information

Age category	from 0 years
Minimum area	4,3 m x 3,2 m
Equipment measurements	1,3 m x 0,12 m x 1,41 m
Free fall height:	0 m
Load capacity:	Not specified
Max. number of users:	Not specified
Fall zone: EN 1177	Grass surface
Designation:	exterior
Availability of spare parts:	supplied by the
Certificate of Compliance:	ČSN EN 1176

### Material

Metal parts - structural steel  
Plastic parts - HDPE

### Finish

Duplex powder coated with coat curing  
Hot-dip galvanizing

### Description

The support structure of the panel is made of structural steel (metal profile 100 x 100 mm) which is protected against corrosion by zinc coating, resulting in a very prolonged service life of the workout elements, and coating with baked paint KOMAXIT according to the RAL colour system. These structures are anchored to concrete footings. All other metallic elements are also zinc coated and treated with baked paint KOMAXIT according to the RAL colour system.

The wall is made from high quality HDPE plastic (high density coloured polyethylene, which is characterised by high colour stability, UV resistance but mainly safety as it doesn't break and therefore there is no danger of injury to children by sharp fragments). All fastening material is galvanized or stainless steel.
