

Low basketball basket BK001K - metal

Product type BK-001K-10

Basic information

| | |
|------------------------------|------------------------|
| Age category | from 0 years |
| Minimum area | 4,1 m x 4,2 m |
| Equipment measurements | 1,1 m x 1,19 m x 1,7 m |
| Free fall height: | m |
| Load capacity: | Not specified |
| Max. number of users: | Not specified |
| Fall zone: EN 1177 | Not specified |
| Designation: | exterior |
| Availability of spare parts: | supplied by the |
| Certificate of Compliance: | ČSN EN 1176 - 1 |

Material

Metal units - structural steel
Wooden units - water-proof plywood

Finish

Duplex powder coated with coat curing
Hot-dip galvanizing

Description

The basketball basket support structures is made from structural steel, protected from corrosion by hot-dip galvanizing, which significantly prolongs the life of the play unit. The structures are fixed in a concrete bed. The basketball board is made from water-proof plywood designed for external use. All fastening material is galvanized or stainless steel.
